# Security Notice

Derby Owners Club

4p and 8p Models

Required tools: Open end adjustable wrench , File or grinder (to adjust the adapters)

Estimated time per Satellite: 30 minutes

**Problem:** It has been discovered that there are individuals who have obtained Sega 5575 Master Keys from outside sources including E-Bay that enable players to access the Card Reader and Service Doors. Players have attempted to "Cheat" the game by only allowing the machine to write to their "A" horse cards when they have won a race. If they lose, they replace their "A" card with a lesser horse card. Players have also discovered that they can play for free by giving themselves "Service" Credits.

**Solution:** Sega Recommends that you replace the locks with your own locks. To do this, you will need to use an adapter (Happ Controls Part Number 30-2003-00)

## Special Note:

The spacer is not an exact fit to our lock cams, but it is very close. You will need to either use a file or grinder to remove the necessary material so that the spacer fits our cam. The type of lock that must be used is the type with the bolt style extension that fits into the cam and is secured with a nut. It is not meant for the type of lock that uses a screw to secure the cam to the lock.

If you have any questions or need further assistance, contact your Authorized Sega Distributor or Sega Technical Services at (415) 701-6580 M-F 7:30am to 4:00pm PST.
