

## Field Service Bulletin HOD 3 DLX Games

**Problem:** Gun can be damaged when inserted into holster. Metal side of the holster damages plastic covers of gun assy.

**Solution:** Install the Protective strips (5 1/4") to the side of the Holster Box. Secure with Double Sided Tape (5 1/4"). First, install the tape over the metal edge. Then, push the strip onto the edge stretching the tape out for a secure fit. The holster now has a protective liner to minimize damage to the guns.
